Why choose a Heater for your camper?

Our campervan heating and electrical specialists are fully trained in installing and maintaining the best campervan heaters on the market.

We supply and fit Autoterm diesel heaters to keep you warm, all year round.

These Latvian-made heaters are considered one of the best on the market and have an excellent reputation within the campervan and motorhome community.

The 2kW kit is perfect for all campers and MWB vehicles.

- 3 Year Guarantee
- Customer service technical support hotline
- Low power and fuel consumption
- Easy to use
- Fitted by Autoterm trained and certified engineer
- Fitting certification
- Operation manual included

The Autoterm Diesel Heater is renowned for its consistent and reliable heating performance. Designed to operate efficiently even in extreme cold temperatures, it ensures that your campervan remains warm and cosy regardless of the weather outside.

This is particularly crucial for those who travel to remote locations where temperatures can drop significantly at night.

Our customers who venture further afield in the winter and have remained nice and warm during the extreme conditions outside.

Often asked questions ...

Q - How long does it take to fit a heater?

A - We offer 1 day fitting service in our workshop in Ashford, Kent, TN26 1HL, we can offer a lift to the local station if you wanted to venture into the Ashford Outlet for a day of shopping or you are welcome to sit in our office whilst the heater is being fitted

Q - What is the warranty / guarantee on Autoterm Heaters?

A - All Autoterm Diesel Heater installations come with 3 year warranty

Q - How do I work my heater?

A - We offer a full demonstration after installation and a booklet on how to operate your new heater

Q - Do I receive a certificate after installation

A - Yes we offer full heater warranty and certificate of installation

Q - Is a deposit required ?

A - We ask for a £200.00 deposit to secure your diary date and installation

Q - Is my van insured whilst at our workshop ?

A - All vehicles at our premises are covered by our business insurance, providing your vehicle is insured and road worthy with valid MOT

Q - What should I do before dropping my van off ?

A - If you could please ensure your fuel tank is no more than 1/2 full and must be above 1/4 mark to ensure the standpipe can be fitted into your fuel tank

Q - How much fuel will my heater use?

A - 0.2 litres per hour and that is running at full operational capacity, making it the most fuel efficient heater on the market
